

The Hague - 1999

- Frozen Shoulder
- Prosthetic replacement of the elbow joint
- Assessment of shoulder instability
- Clinical examination of the elbow
- Surgical techniques of proximal humeral fractures
- Computers in shoulder and elbow surgery

Lisbon 2000

- Elbow arthroscopy
- Nerve entrapment in shoulder and elbow
- Pre operative planning in shoulder arthroplasty
- What's new in shoulder imaging
- Acute Elbow instability
- First acute shoulder dislocation

Budapest 2002

- Arthroscopic repair of rotator cuff tears
- How to publish a scientific paper
- Shoulder replacement. Indications and technique
- Elbow arthroplasty
- Medical informatics
- Treatment of severe humeral head fractures
- Arthroscopic treatment of shoulder instability
- Sport injuries of the shoulder
- Treatment of massive RC tears

Heidelberg 2003

- The stiff elbow
- Tips and tricks for arthroscopic RC repair
- How to read a paper
- Synovectomy and arthroplasty in the rheumatoid elbow
- Indication and technique of radial head replacement
- Sports and overuse injuries of the elbow
- Tissue engineering and biomaterials in shoulder surgery
- Glenoid replacement

Rome 2005

- Management of elbow fractures
- Regional tendon transfer in massive RC tears
- The stiff shoulder
- Atraumatic shoulder instability
- Revision shoulder arthroplasty
- Chronic elbow instability
- Application of shoulder scoring systems
- Cuff arthropathy
- Arthroscopic techniques in cuff lesions

Athens 2006

- Complications of reverse shoulder arthroplasty
- How to repair a rotator cuff arthroplasty
- Fracture prosthesis in proximal humeral fractures
- Patient safety – complications of shoulder surgery (open and arthroscopic)
- Chronic enthesiopathies of the elbow
- Tumours of shoulder and elbow
- Infections of the shoulder and elbow
- The paralytic shoulder
- Imaging of the shoulder : plain radiography, sonography, CT scan and MRI

Bruges 2008

- Calcifying tendinitis of the RC
- Treatment of failures after shoulder instability repair
- Distal humerus fractures
- Surgical exposure of the shoulder: tips and tricks
- Os-acromiale and the RC
- Management of total elbow arthroplasty complications
- Risks and complications of arthroscopic shoulder surgery
- Ganglion cysts around the shoulder and nerve entrapment of the subscapularis nerve
- Radial head: from biomechanics to prosthetic replacement

Madrid 2009

- Posterior shoulder instability
- The stiff elbow
- Management of bone defects in shoulder arthroplasty

- Decision making in massive non repairable RC tears
- Elbow prosthesis: from design to function
- Fractures of the clavicle
- Shoulder instability in the elderly patient
- How to write a scientific paper
- Physical exam in tricky conditions of the shoulder

Lyon 2011

- Nerve entrapment around the elbow
- New perspectives in arthroscopy of the shoulder
- Injuries of both ends of the clavicle
- Open and arthroscopic approaches at the elbow
- Biceps pathology: current approach
- Tendon transfer around the shoulder: playing with anatomy
- Proximal Ulnar Fractures
- Treatment of proximal humerus fractures: what's new
- Subscapularis tears from small to irreparable: how and when to treat

Dubrovnik 2012

- Acute and Chronic AC Joint Instability
- How to read, write and review a paper
- Rehab after RC repair
- Posterior Shoulder Instability
- Post operative stiff shoulder
- Acute elbow instability
- The young athlete's shoulder
- Biology of RC Tears
- Distal humerus fractures

Istanbul 2014

- Distal Humerus Fracture
- Arthroscopic bone block for anterior shoulder instability
- Total Joint Arthroplasty for tumors of the proximal humerus and elbow
- Distal Biceps Rupture: diagnosis and treatment
- Bone Insufficiency: evaluation and management in TSA
- Clinical and applied technology for assessment for shoulder pathologies
- Tips and Tricks in Arthroscopic RC repair
- Soft Tissues Management in total shoulder arthroplasty

- Proximal Humerus Fractures

Milan 2015

- Closed or open reduction of the proximal humerus fractures: tips & technique to avoid complications
- RC degeneration. How should it be treated
- Place of tendon transfer for irreparable cuff tear
- Lateralization with the reverse prosthesis: what benefits? How to achieve?
- First episode of elbow dislocation
- AC & SC joint instability
- Sports injuries of the shoulder
- Complex fracture of the elbow
- Minor gleno-humeral antero superior instability

Berlin 2017

- Basic research in RC pathology
- Osteoporotic fractures of the proximal humerus
- Elbow arthroscopy
- The stiff elbow
- Clinical examination of the RC

Genève 2018

- Registries
- Glenoid replacement in total shoulder arthroplasty
- Updates in total elbow arthroplasty
- Chronic elbow dislocations
- Clinical examination of the RC
- Difficulties Risks and Complications in shoulder arthroscopy. How to manage
- Apprehension in gleno-humeral instability: from the joint to the brain
- From the Grammont prosthesis to the modern reverse total shoulder arthroplasty design:
- Effects on clinical and radiographic outcomes
- Traumatic conditions of the radial humeral joint

Virtual congress 2020

- Proximal ulna fractures: current concepts
- Coronoid fractures: from understanding to treatment
- Not (yet) evidence based indications for elbow arthroscopy.

- Evaluation and management of severe glenoid bone loss in revision cases of shoulder arthroplasty.
- Anatomical Shoulder Arthroplasty: Current Indications, Techniques and Results
- How to avoid complications in reverse shoulder arthroplasty?
- Anterior Shoulder Instability
- Treatment of Proximal Humerus Fractures in 2020– difficult decisions in the face of evidence.
- Management of AC joint Injuries – AC Joint Anatomy and Biomechanics in 2020

Poznan congress 2021

- Distal biceps tendon ruptures: tips and tricks
- Stemless shoulder arthroplasty
- Failure after shoulder instability surgery
- Repositioning techniques around the Elbow
- Decision making in massive rotator cuff tears: Is AI the future?
- Cutibacterium acnes and low grade infections in shoulder surgery - aspects from a mystery
- Not (yet) evidence based indications for elbow arthroscopy
- How to make the good choice among different preoperative surgical planning systems for total shoulder arthroplasty
- Diagnosis and management of scapular dysfunction

Dublin congress 2022

- Management of Nerve Pathologies around the Elbow
- AC instability
- Arthroplasty for proximal humerus fracture
- Fractures around the elbow
- Optimizing implant position and managing bone loss in reverse shoulder arthroplasty: a case-based review
- Treatment of degenerative rotator cuff tear
- The OPEN LATARJET: still the gold standard?
- Tips and tricks for successful primary total elbow arthroplasty
- NEUROLOGIC DISORDERS AROUND SHOULDER

Munich Congress 2024

- Shoulder pathologies from a different angle: The impact of scapula motion
- Malunions around the elbow: prevention and treatment
- The HAGL injury in 2024: do we have a consensus?
- All around the acromion

- Arthroscopic management versus hemiarthroplasty in patients with primary glenohumeral arthrosis younger than 50 years old
- All the elbow instabilities
- Why my TSA failed and how To fix it
- Management of glenoid bone loss in reverse total shoulder arthroplasty: metal vs bone?
- Biological augmentation for chronic rotator cuff tears
- Revision and salvage procedures around the elbow
- The key to succeed in reverse shoulder arthroplasty
- Is dynamic anterior stabilization (DAS) replacing the traditional instability procedures?
